AxpertSoft Pdf Merger Activator

Simply load the PDF files you wish to join, then provide the merge options. When you have set the merge parameters you can start the PDF file concatenation immediately. When the merge process is completed AxpertSoft Pdf Merger will create a single PDF file with the extracted content from all the selected PDFs. Merge Options: You can select the page range you wish to merge, the options include selection of the following: Single page Pages that exceed the page range selected. Pages that are missing in the source PDF documents You can also choose to combine two or more PDF files to generate a single PDF document. This is very useful for example, you may have a document that has been split into multiple files, but you only want to print the latest version of the same file. You can combine all the files into a single PDF and print that. Features: You can select the page range you wish to merge. You can select the range of pages you wish to exclude from the resulting PDF file. You can select the range of pages you wish to preserve from the resulting PDF file. You can select the range of pages to exclude from the resulting PDF file. You can select the range of pages to include from the resulting PDF file. You can select to include the page by page or to leave the pages unmodified. You can select whether to merge all the files or just the ones that are missing. You can use the PDF formfill tool on each page of the resulting file. You can use the XObject search tool on each page of the resulting file. You can use the Advanced PDF Search tool on each page of the resulting file. You can select the source PDF document you want to use when you merge documents together. When merging PDF documents together and you want to preserve the PDF document structure, use the Advanced PDF Search tool to extract the XObjects from the PDF document into a string of objects. Then you can use the Text Converter tool to convert each XObject into a text string. You can combine a PDF document with various text processing features such as formfill, text search, formtext, PDF Preview etc. Free PDF Editor is the best free PDF editor for Windows, the 100% freeware tools.
