... who tries to save his girlfriend from a mysterious disease, or you can play as an old lady ... who fights for the life of her daughter who has been infected with the same disease. + This game has the same story and game play as Harvest Moon: Back to Nature, except that it is combined/ported together as one game. You can either play as a boy ... who tries to save his girlfriend from a mysterious disease, or you can play as an old lady ... who fights for the life of her daughter who has been infected with the same disease. ==Story== In this game, you have two options to start the game. If you chose to play as the boy, you will start out on a trip to the city. You will be heading there to get some medicine for your girlfriend's disease. However, your girlfriend isn't there. You end up meeting a young lady who was infected and currently being treated by a doctor. You are given the choice to help her, or you can continue your way to the city. You will eventually end up being taken to your girlfriend, where she is in bed and sick, and needs some medicine for her. If you chose to play as the old lady, you are sent to your hometown. Your daughter, who has the same disease, has been locked up in a hospital, because she is contagious. You must find the doctor that is treating her to get her out of the hospital. However, you don't know where the hospital is. You will have to search your surroundings for clues. You will eventually be able to find the hospital, where you must get the doctor to come and see your daughter. She is still contagious, so don't want to let the doctor in until you find the cure to her condition. If you find the cure, then you can send your daughter home. Otherwise, you will have to wait until she is treated. The game has the same story as the Harvest Moon: Back to Nature game, except that it is combined/ported together as one game.
