... the key to Autodesk solutions: creating a product key is as simple as creating a customer number, but we provide an additional layer of control, safety, and integrity to our digital services. When a product is registered with a valid product key, it is immune to counterfeit. A product key is equivalent to your customer number, which should be treated with the same level of care. We have a customer number. You should never share your customer number with anyone. It is your record of purchase and your link to Autodesk products and services. If you register your product with a valid product key, you can be confident that you are getting the same product and not something that looks just like it. If you share your customer number, your clients may be able to access products you have not purchased. You may also give your customers access to your product keys, which means that they may be able to download products that are not licensed. This will render your product keys invalid, and the only way to get a valid product key for your product is to register it with a valid product key. ## Which products do we support? The products we support are listed below. **Autodesk 2010 products** * **A360** * **A360 Architecture** * **A360 Civil 3D** * **A360 Mechanical 3D** * **A360 Site Manager** * **A360 Project** * **Civil 3D** * **TrueSight 2012** * **TrueSight 2012 for Building Information Modeling** * **Inventor** * **Inventor Essentials 2012** * **Inventor Essentials 2012 for Building Information Modeling** * **Inventor Explorer 2012** * **Inventor Foundation 2012** * **Inventor PLS 2012** * **Inventor Viewer** * **Inventor Design Review** * **Inventor Product Creation Kit** * **Inventor Architecture** * **Inventor Site** * **Inventor Workbench** * **Inventor Architect** * **Inventor Professional 2013** * **Inventor Professional 2013 for Building Information Modeling** * **Inventor Professional 2013 for Land Surveying** * **Inventor Professional 2013 for Structure Design** * **Invent 82157476af
